**Subject:** Transfer of Operator Form 1073MW

I am pleased to inform you that the Form 1073MW listing 238 wells (plus 2 more wells which were added to the list) was processed effective today. All the wells but one were transferred from Sanquip LLC (#21589) to Banner Oil & Gas LLC (#22792). You will be able to pull the approved transfer form and list from our website within a few days once it is scanned into our imaging system.

It took a lot of time to process this request because we ran into some problems, most of which we were able to research and resolve ourselves, however there are a few that will need the new operator to address:

1) You have the name & number of API 067-00832 listed as Featherston 6. At one time it was the Featherston Ranch 6 and the number has switched back and forth but in our system it shows it to be Featherston 7.
   a. The well shows to have been plugged back in 1987 and another 1002A was never submitted to show that it was reentered even though it had went through several companies. It has been transferred but it needs a 1002A as soon as possible because it has become a compliance issue.
2) We also need a 1002A within the next 30 days for the following:

| | |
|---|---|
| 067-01827 | Featherston 12 (shows terminated and must show the current status of oil, gas, etc.) |
| 067-20049 | Brooks 9 (needs to show the correct footages.) |
| 137-22488 | Harrison 21 |
| 137-22956 | Hefner 43A |
| 137-08684 | Allen 12 (shows terminated and must show the current status of oil, gas, etc.) |
| 137-22384 | Allen Van 26-W (shows terminated and must show the current status of oil, gas, etc.) |

3) Many of the wells on the list have different names than what is in our system. For example, you listed API 137-07958 as Cleary-Stephens 4 but it is in our system as Stephens 4. Most of them we have marked on the list but we cannot change a name or number to match your list without an amended 1002A stating that you are amending it for that purpose.
4) There were a few that had the spit calls listed incorrectly which we corrected on your list. Again, if the information on your list is correct, we need an amended 1002A.
5) The only well that was not transferrable was API 137-07986 which you listed as the Allen Cigna 11. It shows that it was plugged 10/20/2003.

If you have any questions, please reach me at the number or email address listed below.

Sincerely,
Carol A. Collett
