To Whom It May Concern,

We have approved the transfer of 129 wells on the attached list from Mid-Con Energy Operating (23271) to P O & G Operating LLC (23558). Images of the approved form will be available online as soon as possible.

We were not able to transfer the Mina #1-4 (35-139-24553) due to the following reason:
This well needs to either be completed as an injection well or terminate the permit to inject.

P O & G Operating LLC needs to file new 1002A forms within 30 days for the 2 wells listed below stating the current status since these are terminated injection wells:
