)
 SECTION 30,)
 TOWNSHIP 3 SOUTH,)
 RANGE 3 EAST,)
 CARTER COUNTY, OKLAHOMA)

CAUSE CD NO.
201203298

APPLICATION

COMES NOW Applicant and shows the Honorable Corporation Commission as follows:

1. Parties: Applicant, XTO Energy Inc., 810 Houston Street, Ft. Worth, TX 76102, is the owner of oil and gas leasehold interests within the lands described in the caption hereof. The Respondents to this Application are shown on the Exhibit "A" attached hereto.

2. Allegation of Facts:

a. By Order No. 199785, dated October 5, 1981, this Commission designated Section 30, Township 3 South, Range 3 East, Carter County, Oklahoma, as a 640-acre drilling and spacing unit for the Woodford common source of supply.

b. There is one well on the above-described land producing from the above-named common source of supply.

c. Pursuant to an application for increased density in Cause CD No. 201 203297, Applicant is requesting an Order authorizing an additional well for the Woodford common source of supply.

d. Given the amount of hydrocarbons capable of being produced by the existing wells on the unit and the expected wellhead absolute open flow potential for the proposed well, Applicant believes there will be insufficient allowable to justify the risk and expense of the proposed well.

e. The above-described increased density well should be produced as requested at this time. There will be no adverse effect upon the correlative rights of owners in offset units if the proposed well is given a separate allowable in relation to the existing wells and the only correlative rights affected would be the rights of owners in the unit to extract their fair share of hydrocarbons if the well is not produced as requested.

APPLICANT: XTO ENERGY INC.
CAUSE CD NO.: 201 _____
APPLICATION

f. The aforementioned wells cannot effectively and efficiently drain the recoverable hydrocarbons from the above-named common source of supply with only a single unit allowable. Further, said wells will not be able to effectively compete with offset wells by sharing a single unit allowable.

g. Applicant, pursuant to OCC-OGR 165:10-13-9, requests an exception to the allowable rules for increased density wells and/or an exception to OCC-OGR 165:10-17-11.

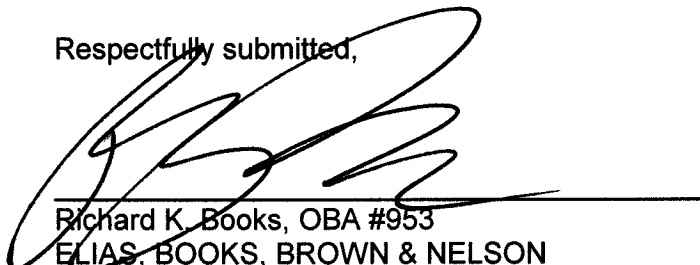

3. Legal Authority: Title 52, Section 87.1, O.S.; OCC-OGR 165:10-13-9; OCC-OGR 165:10-17-11; OCC-OGR 165:5-1-2(c) and OCC-OGR 165:10-1-3.

4. Relief Sought: Applicant requests the Commission enter an Order, as an exception to Rule Nos. 165:10-13-9 and 165:10-17-11, amending Order No. 199785 and the Order to issue in the above described increased density action, to authorize the Hobbs 2-30H well the greater of a separate minimum allowable or a separate allowable based upon the absolute open flow of the well, to be calculated each year, as to the Woodford common source of supply underlying Section 30, Township 3 South, Range 3 East, Carter County, Oklahoma.

5. There shall be no transfer of the separate allowable between the Hobbs 2-30H well and other wells within the unit. In addition, there will be no underage or overage pertaining to the separate allowable transferred between the well and other wells in the unit.

WHEREFORE, Applicant prays that after notice and hearing as required by law, the Order amending said Orders authorizing a separate or special allowable for the above-described unit be issued.

Respectfully submitted,

Richard K. Books, OBA #953
