APPLICATION

COMES NOW Applicant and shows the Honorable Corporation Commission as follows:

1. Parties: Applicant, Jones Energy, LLC; Nosley SCOOP, LLC; and Nosley Acquisition, LLC, 807 Las Cimas Parkway, Suite 350, Austin, TX 78746, is the owner of the right to drill a well as to the Mississippian, Woodford, and Hunton common sources of supply underlying the above-described lands, by virtue of valid and subsisting oil and gas leases owned by Applicant covering portions of said lands. The Respondents to this Application are shown on the Exhibit "A" attached hereto.

2. Allegation of Facts:

a. Section 28, Township 10 North, Range 7 West, Grady County, Oklahoma, will constitute a 640-acre horizontal drilling and spacing unit, as defined by Title 52, Section 87.1, Okla. Stat., for the Mississippian, Woodford, and Hunton common sources of supply, pursuant to the Order to issue in Cause CD No. 201 808114.

b. Applicant has conducted a diligent and meaningful search of the local county assessor's records, county treasurer's records, county deed records regarding the property involved for return addresses on recorded instruments, county probate records, city and county telephone directories and other sources of such information to locate each Respondent, and has made a bona fide effort to reach an agreement as to the development of said unit with each Respondent located by such search.

c. Applicant has drilled or proposes to drill a well on said "drilling and spacing units" to test the common sources of supply set out above, and the avoiding of the drilling of unnecessary wells, the prevention of waste, and the protection of correlative rights require that the Commission order all owners to pool their interests and to drill and develop the "drilling and spacing units" and common sources of supply as a unit.

APPLICATION

3. Legal Authority: Title 52, Section 87.1, Okla. Stat.

4. Relief Sought: Applicant requests the Commission pool the interests, designate an operator, provide for the development of the unit, including the drilling of the proposed well and all subsequent wells, where applicable, and adjudicate the rights and equities of oil and gas owners in such drilling and spacing unit and common sources of supply covered hereby, all to be upon such terms and conditions as are just and reasonable and which will afford all of such owners the opportunity to recover or receive without unnecessary expense their just and fair share of all hydrocarbon substances produced therefrom, and that the Commission make definite provisions for the payment of all actual costs and expenses, not to exceed reasonable costs and expenses of drilling and development, including a reasonable charge for supervision. Applicant may request up to one year from the date of the Order to enter in this cause, within which to commence the initial well. Applicant further requests that each of the common sources of supply named in this Application be aggregated with the others and pooled as a single unit.

WHEREFORE, Applicant prays that after notice and hearing as required by law, all oil and gas interests be pooled and the rights and equities of all oil and gas owners be adjudicated.

Respectfully submitted,
