## **II. Facts**

A. Applicants current base rates and charges were approved by the Commission in Cause No. PUD 201800140 by its Order No. 702531 issued on September 19, 2019, based on a test year ending September 30, 2018. Applicant is not earning sufficient operating income to produce a fair and reasonable return on capital or a fair and reasonable return on the value of its plant, property and other assets dedicated to public utility service within the State of Oklahoma. Applicant must have increased rates and consequent additional revenues if Applicant is to continue to provide adequate and reliable electric service and earn a fair, just and reasonable rate of return on its investment.

B. On November 15, 2021, pursuant to OAC 165:70-3-7 of the Commission's Minimum Standard Filing Requirements, OG&E filed its Notice of Intent, advising the Commission of its intent to file an Application seeking Commission review of OG&E's rates, charges and tariffs for retail electric service within the State of Oklahoma.

C. OG&E brings this Application, based upon a test year ending September 30, 2021, to initiate proceedings to review the rates, charges and tariffs of OG&E, and for the establishment of fair and reasonable rates and charges upon completion of the Commission's review. OG&E tenders with the filing of this Application its complete Application Package as required by OAC 165:70-3-1, and following the filing of the Application Package, the Company will provide the Public Utility Division its Supplemental Package as required by OAC 165:70-5-20.

D. OG&E is requesting a change in its rates that will result in an increase of approximately \$163.5 million when compared to OG&E's rates that were implemented in September 2019. OG&E expects this change will be effective no later than mid July 2022. The request is for rates sufficient to achieve a 10.2 percent return on 53.37% percent equity, which Applicant believes to be a fair, just, and reasonable rate.

E. OG&E's primary purpose for seeking a change in rates is to recover the costs associated with an increased Return on Equity, updated depreciation expense, extension and expansion of OG&E's Grid Enhancement Mechanism, and implementation of a Performance Based Rate Plan. OG&E also seeks other regulatory treatment for certain costs and other specific changes to its tariffs and riders.

**III. Legal Authority.**

The Commission has jurisdiction in these proceedings by virtue of Article IX, Sections 18 through 35 of the Constitution of the State of Oklahoma, the Oklahoma statutes, including 17 O.S. §151 *et seq.*, 17 O.S. §250 *et seq.*, and the Commission's rules.

**IV. Relief Requested.**

WHEREFORE, premises considered, OG&E requests that the Commission, issue an order authorizing Applicant to adjust its retail rates subject to the jurisdiction of the Commission by the amount hereinabove set forth, authorizing Applicant to file changes in tariffs and terms and conditions of service, as well as all other relief requested in the testimony and exhibits filed by OG&E in this cause and for such other and further relief as the Commission deems appropriate under the circumstances.

Respectfully submitted,

OKLAHOMA GAS AND ELECTRIC COMPANY
