**INSTRUCTIONS**

- Use a separate form for each well unless testing an unallocated lease or EOR unit.
- Testing time shall be not less than 6 hours or more than 24 hours.
- Test shall be submitted within 30 days after completion. No allowable shall be assigned to the well until this form has been accepted by the division.
- Effective date of test is the completion date; late-filed tests are effective the first day following the month the test is accepted by the division; no allowable shall be assigned to the well until the Form 1002A and logs have been accepted by the division.
- Allowable shall be the rate indicated on the Allocated or Discovery Well Allowables Tables, whichever is appropriate, or by special field rules.
- Discovery initial tests must be witnessed by a representative of any offset operator in the pool and a representative of the division, unless waived.
- Operator chooses between a lease or well allowable if the formation is unspaced. A lease allowable is the shallowest 10-acre allowable from the allowable table for each well; a well allowable uses 10-acre spacing from the allowable table.
- Falsification of reports is subject to penalty, O.S.L. 1933.
