Subject: Transfer of Operator Form 1073MW

I am pleased to inform you that all 48 wells listed on the Form 1073MW have been transferred from Chevron U.S.A., Inc. (#00913) to ZZ Energy LLC (#22532). You should be able to download the imaged copies from our website within a few days.

The only problem I found with your request had to do with the White C 7, API #35-077-21545:

1) On your transfer form, it listed as being in SE4 SE4 SE4 NW4 as does our system but the 1002A says it is in the SE4 SE4 SE4 SW4 OF 4-6N-18E.
2) The 1002A however is in conflict with itself because it does have the well spotted with a dot in the SE4 SE4 SE4 NW4 on the grid.
3) Furthermore, the 1002A says it is located 2470 from the SOUTH line (FSL) and 2350 from the West line (FWL). The permit (Form 1000) issued has it located 2470 from the NORTH line (FNL) and 2350 from the West line (FWL).

I'm confident that the actual location is in the NW4 and the footage location is FNL not FSL because that would all correspond to where the dot was placed on the grid.

The 1002A needs to be resubmitted as an amended 1002A with the correct location footages and with the correct spot location calls. Please submit it within 30 days so that it doesn't become a compliance issue. If you have any questions please call or email me. I will be only too glad to help if I can.

Sincerely,
